

PRACTICAL INFORMATION

Training Seminars

- Exclusively open to medical doctors. Knowledge of classical homeopathy strongly recommended.
- Teaching is assured by Dr Elmiger personally, during four annual one-day sessions.
- Sessions take place on Saturdays, 9.30AM – 12.30 PM; 2.30 PM – 5.30 PM.
- Location :
MIJE (Maison Internationale de la Jeunesse et des Etudiants)
6 rue de Fourcy
75004 Paris.
(Metro St Paul or Pont-Marie)
- The form of teaching is highly individual. Each doctor in turn becomes the patient and undergoes the therapy for his own particular case. Thus they become examples for one another and the amount of knowledge and experience accumulated during the day surpasses greatly what is achieved in purely theoretical courses. Additionally the improvements resulting from the therapy are there for all to see from one session to the next.
- Dr Elmiger considers that Sequential Homeopathy therapists, like psychoanalysts, must imperatively undergo the therapy themselves in order on the one hand to feel the benefits personally and on the other to develop the necessary sensitivity essential for the practice of this art.

Enrolment :

Groups are limited to 10 – 12 participants. Interested doctors should enroll by fax or e-mail at least three weeks in advance to Dr Elmiger
